VIAVAI allows the compatibility of its light sources with different types of dimming. The track includes, in combination with the 10A conductors, the BUS line for direct control of the sources (with the exception of LED boards). Maximum compatibility with different dimming systems: 0-10V, 1-10V, Push, potentiometer, CUT PHASE, DALI 1, DALI 2, Casambi, Amazon Alexa, Google Home and Matter [Apple Home]. Combine the optocoupler when using the BUS line to control the sources.

VIAVAI permette la compatibilità delle proprie sorgenti luminose alle differenti tipologie di dimmerazione. Il binario prevede, in abbinamento ai conduttori da 10A, la linea BUS per il controllo diretto delle sorgenti (ad esclusione delle schede LED). Massima compatibilità ai differenti sistemi di dimmerazione: 0-10V, 1-10V, Push, potenziometro, taglio di fase, DALI 1, DALI 2, Casambi, Amazon Alexa, Google Home e Matter [Apple Home]. Abbinare l'optoisolatore quando si usa la linea BUS per il controllo delle sorgenti.
